English

Interests

Football || Table Tennis || Swimming

Projects

04/2022 – present

Gift-chat-app [↗](#)

Gift-Chat-App is a social media website, I built this website within the space of one week and one day, and It's also my first social website.

And it is built with

- HTML5
- SASS
- JAVASCRIPT

04/2022 – present

Gift-Calculator-website [↗](#)

Gift-calculator is a simple calculator built with

- HTML
- SASS
- JAVASCRIPT.

in the test of my knowledge on how to use Javascript.

03/2022 – present

Netflix-clone [↗](#)

Netflix clone is actually a project I create using

- REACTJS
- FIREBASE
- TAILWIND-CSS
- REACT HOOKS and more.

Well Netflix-clone is actually a movie app I worked on early this month and the link is attached to the title area also thanks.

05/2022 – present

EfeGift-Profile [↗](#)

This is actually a portfolio website I built using

- HTML
- SASS
- JAVASCRIPT.

07/2022 – present

E-commerce website [↗](#)

E-commerce is actually my first React project I built early this month using

- REACTJS
- Material-UI
- Stripe
- REACT Hooks and more.
